PREFACE

This index was made in the Architectural Library of the University of Michigan, where it has been in use for two years. It was primarily intended for the use of the art and decorative design classes of the Architectural College. Its success in this field has led the compiler to publish it in order that other libraries and classes may benefit from it.

While no index of this sort can be made perfect, careful selection of illustrations has made this work a helpful guide for those interested in nature and design. It includes not only objects of nature in their natural setting but also nature as used in art, sculpture, painting, etc.

Grateful acknowledgment of their valuable assistance is made to Miss Mabel Randall of the Architectural Library, Professor Herbert A. Fowler, of the Architectural College, and Cecil Ellis, Jr.

JESSIE CROFT ELLIS.

Ann Arbor, Michigan, February, 1930.
